Provide. Support. Innovate.

PyanGo SubAward Management for NetSuite

- Do you provide funding for external organizations or contractors?
    - Do you require an application process?
    - Do you rank applications for potential grantees?
- Do you partner with other non-profits to accomplish your mission?
- Are you a non-government organization serving multiple countries with a local presence?
- Are you finding it difficult to track grantee expenses?

## $500+ MILLION | Managed Grants Supported

Allocate and Monitor Awards to Outside Organizations

PyanGo SubAward Management for NetSuite helps all non-profits and government organizations manage sub-award and pass-through grants. It enables organizations to allocate a portion of their grant award to an outside individual or an organization. PyanGo SubAward Management helps non-profit organizations accurately monitor the progress of initiatives and allows for an easy roll-up of sub-award expenses to the primary inbound grant award.

PyanGo SubAward Management also provides Grant Administrators the ability to monitor the sub-award at periodic intervals to ensure compliance with the terms and conditions set forth by the funder or sponsor.

Built for
**ORACLE NETSUITE**
Native SuiteApp

Along with PyanGo Grant Management, Grant Administrators have a 360° view of how revenue and expenses are managed. Budgets are established for specific projects and sub-awards linked to those projects. And while many grants can fund projects, and a grant may fund multiple projects, PyanGo provides the flexibility to accurately direct funds where they are most needed and the ability to track and report how the funds are used.

Built Natively in NetSuite

PyanGo SubAward Management is 100% natively integrated with your existing NetSuite products so that all activity is handled in real-time with full visibility. Using this application - "you never leave NetSuite" - it's a seamless experience.

Features
Make SubAward Management Easy
Keep Track of All SubAward Details in Real-time
- Apply milestones, terms, and conditions, and specify budgets for pass-through grants
- Link outbound grants to fund sources, programs, initiatives, and projects
- Allocate spending percentages
- Make payments to grantees
- Record expense report data

Reduce Your Pile of Grant Applications
Tackle Multiple Challenges Facing Today's Non-profits with One Solution
- Evaluate grantee proposals
- Manage grant applications (letters of inquiry)
